

Updating Google Chrome

Please Follow the Steps below:

Important

Please save any work before clicking Relaunch, as Chrome will close and reopen.

If you already see **“Relaunch to update”** in the upper-right corner of Chrome, you can simply click that button instead of going through the steps below. Only if you do not see **“Relaunch to update”** you can follow the steps below.

How to Update Google Chrome

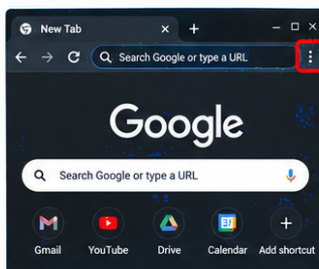

Follow these steps to manually check for and install the latest version of Chrome.

Keeping Chrome updated helps protect your information, improves performance, and ensures everything works smoothly with the tools we use at Cornerstone.

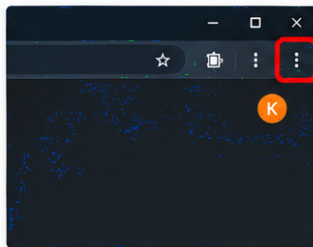

1 Open Google Chrome

Launch Google Chrome on your computer.

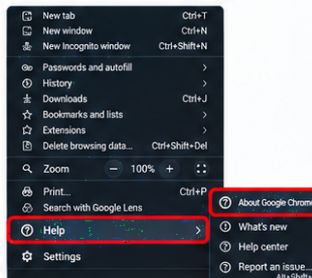

2 Click the three dots

In the upper-right corner of Chrome, click the three vertical dots (⋮) to open the menu.

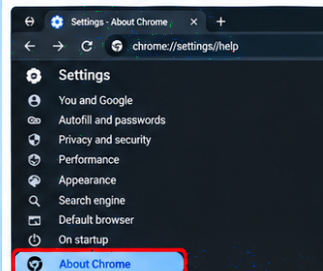

3 Select Help

From the dropdown menu, hover over **Help**, then click **About Google Chrome**.

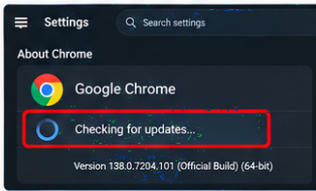

4 Click About Google Chrome

This will open the About Chrome page and start checking for updates.

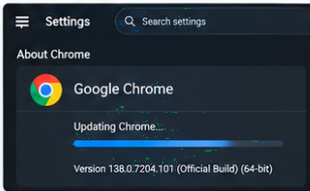

5 Chrome checks for updates

You'll see a screen that says "Checking for updates..." while Chrome looks for the latest version.

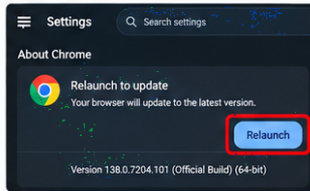

6 Update will install automatically

If an update is available, Chrome will download and install it. You may see a progress bar.

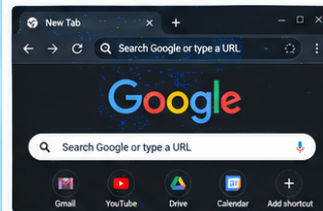

7 Restart Chrome

Once the update is complete, you may be asked to relaunch Chrome. Click **Relaunch** to finish.

8 You're all set!

Chrome will close and reopen automatically with the latest version installed.

Can't find the "Relaunch to update" message?

If you don't see the update notification in the top-right corner, follow the steps above to check for updates manually.

Need help?

Contact the IT Department if you run into any issues or need further assistance.

How to Update Google Chrome

Please follow these steps to make sure you are running the latest version of Google Chrome:

1. **Open Google Chrome** on your computer.
2. Look at the **upper-right corner** of the Chrome window.
3. Click the **three vertical dots (⋮)** to open the Chrome menu.
4. Hover your mouse over **Help**.
5. Click **About Google Chrome**.

6. Chrome will automatically check to see if there is an available update.
7. **If an update is available**, Chrome will automatically download and install it.
8. Once the update is ready, you may see a **“Relaunch”** button. Click **Relaunch** to finish installing the update.
9. Chrome will close and reopen. **Your Chrome browser is now up to date.**

If you experience any issues updating Chrome, please contact the **IT Department** for assistance
